Three open positions for specially appointed professorship with research grant for FY2022-
FY2024

Network for Education and Research on Peace and Sustainability (NERPS)
Hiroshima University

Based on its founding principle “a single unified university, free and pursuing peace” and its five guiding principles, Hiroshima University is a leading national university in Japan, with the third largest campus area in the country, promoting: pursuit of peace; development of intellectual attitudes that seek peaceful solutions to the problems affecting society and the world at large; creation of new forms of knowledge to evolve new systems of study which surpass existing frontiers of knowledge and encourage intellectual innovation; nurturing of well-rounded human beings; training graduates with well-developed and multifaceted personalities by means of an education which has breadth as well as depth; collaboration with the local, regional, and international community to create a university with a strong international awareness which can efficiently disseminate knowledge on a worldwide scale; continuous self-development; and to maintain a constant readiness to re-examine established ways of acting, and a constant openness to improvement and innovation.

Hiroshima University launched a new long-term vision in April 2017 called the **SPLENDOR PLAN 2017**, which emphasizes the realization of a new philosophy of peace science – “**Science for Sustainable Development.**” As a step towards meeting the objectives of the **SPLENDOR PLAN 2017**, the university established the Network for Education and Research on Peace and Sustainability (NERPS, see nerps.org) in 2018 with the following main objectives:

- 1) To identify research priorities and emerging issues related to peace and sustainable development;
- 2) To co-design and co-implement innovative inter- and trans-disciplinary education and research projects on “Peace and Sustainability” in collaboration with a wide range of stakeholders;
- 3) To collaborate with a wide range of local and international stakeholders so that Hiroshima University, as a comprehensive research university, can contribute to the Sustainable Development Goals (SDGs) and to the creation of peaceful and sustainable societies in the face of increasing global challenges;
- 4) To establish a one-stop-center for collection and dissemination of information related to university-based research and outreach activities related to the SDGs; and
- 5) To coordinate university-based research activities related to the SDGs.

NETWORK FOR EDUCATION AND RESEARCH ON PEACE AND SUSTAINABILITY

A601, Advanced Science of Matter, Hiroshima University

PHONE: +81-82-424-6826, EMAIL: nerps@hiroshima-u.ac.jp

NERPS has secured a multi-year funding from 2023 to 2025 to support research and the establishment of new research clusters in Hiroshima University on the nexus of sustainability and peace in the context of global environmental change, including the post COVID-19 era. This builds on the inaugural fellowship program that ended in March 2022. A specific condition for the successful awardee is to spend approximately 2 months in residence at NERPS in Hiroshima University as a cross-appointment faculty. This could be a continued two-month stay or be divided into two separate visits. During this residency the awardee is required to integrate his/her research network with faculties and students of Hiroshima University and other local stakeholders around Hiroshima and Japan. The awardee is also expected to collaborate with the core members of the NERPS, contribute to the annual NERPS conference, and deliver seminar presentations regarding the progress of their projects and interact with various stakeholders to foster research project collaboration. The goal of these research activities and networking is to develop a funding proposal that will sustain and expand the initiatives under the new cluster. The following specific thematic research areas have been identified for this purpose; education would be an overarching topic of interest across the themes:

- 1. Resources in the context of the nexus (land, water, food, energy, fisheries, minerals, oil and gas, etc.), both domestic and transboundary types**
- 2. The nexus between peace and sustainability in the context of disaster risk reduction**
- 3. Digital technologies in the context of the nexus in an increasingly digital world (AI, Big Data, ICT, digital divide)**
- 4. Migration in the context of the nexus (environmental/climate/ disaster/ conflicts, etc.)**
- 5. Governance and institutions, and justice in the context of the nexus (local, national and international systems)**
- 6. Big data analytics for studying the nexus between peace and sustainability**

NERPS at Hiroshima University invites applications from academic researchers by **December 15, 2022** **that propose 2-year research projects**, addressing one or a combination of the abovementioned thematic research areas. We are also open to other innovative research projects that address issues at the nexus of peace and sustainability. The intent is to award successful applicants by no later than mid-January, 2023, and the cross-appointment period will begin on late January 2023.

Date: June 8, 2020

Open positions for specially appointed professorship with research grant FY2022-FY2024

1. Affiliation (Appointment):

Academy of Hiroshima University (Network for Education and Research on Peace and Sustainability (NERPS) at Hiroshima University)

2. Position(s) and the number of opening(s):

Specially Appointed Professor, or Specially Appointed Associate Professor^{*}, Three (3)

^{*}Depending on the result of the performance reviews of the applicant at the time of employment

3. Commencing date of employment:

Late January 2023

4. Terms of employment

- Cross-appointed position(s) offered during two phases:
 - Phase 1: January-March 2023. The research grant offered for this phase is 1 million yen for each awarded proposal. The awardee must submit the first interim report by the middle of March 2023.
 - Phase 2: April 2023-February 2025. The research grant offered for this phase is 4 million yen for each awarded proposal. This will be awarded in two installments (2 million yen for the first 12 months and the rest for the remaining period). Funding for the second year is subject to the submission of the second interim report by the end of February 2024. The awardee must submit the final report by the end of February 2025.
 - For each month of stay at Hiroshima University, the awardees will receive 1 million yen (maximum period of stay during the whole period is 2 months).
 - Awardees will assume the cross-appointment position at Hiroshima University on the agreed starting date, which will be decided between the applicant's institution and Hiroshima University on the basis of the agreement. This cross-appointment should not affect the current employment of the awardee. During the cross-appointment period, the awardee is required to stay for approximately two months at Higashi-Hiroshima, Japan and work at the Higashi-Hiroshima Campus of Hiroshima University. This could be a continued two-month stay or be divided into two separate visits.
 - To apply the cross-appointment system to the applicant(s), he/she and his/her organization need to approve and sign the agreement, including the employment terms of the cross-appointment in advance. Please refer to the URL below
- <Cross-appointment System: <https://nerps.hiroshima-u.ac.jp/wp-content/uploads/2020/06/Cross-appointment-System.pdf>>

5. Field of specialization

Specify at least one from the following four transdisciplinary research areas. We are open to other fields as long as the linkage to the peace-sustainability nexus is clearly specified:

- 1) Resources in the context of the nexus (land, water, food, energy, fisheries, minerals, oil and gas, etc.), both domestic and transboundary types
- 2) The nexus between peace and sustainability in the context of disaster risk reduction
- 3) Digital technologies in the context of the nexus in an increasingly digital world (AI, Big Data, ICT, digital divide)
- 4) Migration in the context of the nexus (environmental/climate/ disaster/ conflicts, etc.)
- 5) Governance and institutions, and justice in the context of the nexus (local, national and international systems)
- 6) Big data analytics for studying the nexus between peace and sustainability

6. Teaching responsibilities

For teaching responsibilities, the awardee is requested to lecture in one of the omnibus-type classes in undergraduate and graduate levels, depending on his/her expertise and research projects:

- Undergraduate level (general education courses or discipline specific courses): once (for 1.5 hours) every fiscal year of Japan*
- Graduate level (master's programs): once (for 1.5 hours) every fiscal year of Japan

*The academic year at Hiroshima University is divided into four terms. See the University website <<https://www.hiroshima-u.ac.jp/en/husa/academicprogram/academiccalendar>>.

7. Eligibility and Qualifications

Eligible applicants must satisfy all of the following requirements:

- (1) Prior agreement from current institution of the applicant for cross-appointment employment contract with Hiroshima University. <**Letter of Consent from other party organization:** <https://nerps.hiroshima-u.ac.jp/wp-content/uploads/2020/06/Letter-of-Consent-from-other-party-organization.docx>>
- (2) A doctorate degree or an equivalent degree by the time the appointment begins
- (3) Ability and experience to accomplish the required tasks: conduct research on one of the four transdisciplinary research areas; formulate a team of the new research cluster including at least one researcher of Hiroshima University and one nonacademic stakeholder such as private sector, government and public institution, and NGOs; develop a long-term funding proposal.
- (4) During the cross-appointment period, the awardee is required to stay for approximately two months at Higashi-Hiroshima, Japan for the purpose of reporting the projects, networking with faculty, and collaborating with the local host. This could be a continued two-month stay or be divided into two separate visits
- (5) Ability and agreement to report his/her transdisciplinary research project by document submission and presentation (see Section 13 on Report Submission and Evaluation for further details)

A601, Advanced Science of Matter, Hiroshima University
1-3-1 Kagamiyama, Higashihiroshima, Hiroshima 739-8530 JAPAN
PHONE: +81-82-424-6826, EMAIL: nerps@hiroshima-u.ac.jp

- (6) Hiroshima University (NERPS) must be the primary affiliation for all the outputs of the project.
- (7) Ability and agreement to attend the annual NERPS Conferences, for networking and promoting the new research cluster. The applicants must also be willing to contribute to the conference through peer-reviewing submissions and helping select the best papers.
- (8) Ability and agreement to teach on peace and sustainability to undergraduate and graduate students of Hiroshima University
- (9) Ability and willingness to apply for bigger funding in collaboration with the core NERPS faculty members.
- (10) Those appointed as NERPS fellows in the past are not eligible to apply.
- (11) Although there is no age restriction, priority will be given to mid-career researchers or early-career research with a strong track-record of academic research.

8. Application materials required

- (1) Resume < **Hiroshima University format (Include 2 sheets):**
<https://nerps.hiroshima-u.ac.jp/wp-content/uploads/2020/06/ResumeInclude-2-sheets-Hiroshima-University-format.xls>>
- (2) Selected transdisciplinary research area among the proposed areas and specific focus within 500 words
- (3) Transdisciplinary research plan (including objectives, research methodologies, schedule, expected outputs, a team and role of members) within 1,500 words
- (4) Networking plan at Hiroshima University that demonstrates transdisciplinary collaboration with academics and non-academic stakeholders within 500 words
- (5) List of publications (**only** SSCI/SCI/AHCI publications and academic books)
- (6) Educational activities and teaching experience within 300 words
- (7) Major social contributions and working experience with non-academics within 1,000 words
- (8) Major activities in university/institutional management and administration within 500 words
- (9) List of acquired external funding over the last five years
- (10) Your Researcher ID (Publons) or ORCID information (in any format)

* The ID above or ORCID information can be confirmed from Clarivate Analytics or ORCID website.

NETWORK FOR EDUCATION AND RESEARCH ON PEACE AND SUSTAINABILITY

A601, Advanced Science of Matter, Hiroshima University

1-3-1 Kagamiyama, Higashihiroshima, Hiroshima 739-8530 JAPAN

PHONE: +81-82-424-6826, EMAIL: nerps@hiroshima-u.ac.jp

9. Application deadline:

Noon on December 15, 2022 (Japan time)

All application materials must reach us by email at the following email address:

nerps@hiroshima-u.ac.jp

10. Selection procedure

- (1) First round of the selection process is the screening of application materials on the basis of all application documents submitted.
- (2) Second round is interview. Only applicants eligible to take interview can receive announcement of interviewing procedures from the selection committee.
- (3) Interview will be conducted on-line. Time will be arranged through e-mail communication between the applicants and the selection committee beforehand.

* Any inquiry from applicants about the selection process will NOT be responded to in order to ensure equitability.

11. Employment status

- (1) If you are agreeable to the application of the Discretionary Labor System for Professional Work, you are deemed to work for 7 hours and 45 minutes a day or 38 hours and 45 minutes a week. If not, working hours are from 8:30 to 17:00 (from Monday to Friday), and break time is from 12:00 to 12:45.
- (2) Workdays are from Monday to Friday (excluding public holidays) in principle.
- (3) Holidays are Saturdays, Sundays and public holidays in principle.

12. Salary, etc.

- (1) Annual salary system will be applied to successful candidates.
(Hiroshima University Work Regulations for Employees will be applied.)
- (2) Economy class round trip ticket between home institution and Hiroshima University once every fiscal year shall be provided.

13. Report Submission and Evaluation

- (1) Submission of the first interim report by the middle of March 2023.
- (2) Submission of the second interim report by the end of February 2024.
- (3) Submission of the final report by the end of February 2025.

* Reports must be prepared using the template shared by NERPS.
